

3rd BAFAS Congress

Registration 8.30-9.00

Introduction & Greetings from

President BAFAS -President TOTBID 9.00 – 9.15

Session 1: Forefoot 1- Hallux valgus

9.15-10.45

Chairmen: A.Katsarov - M.Uzun

1. Hallux Valgus an evolution to approach the problem

T. Badekas. Greece

2. Lecture title Hallux Valgus correction with concomitant flatfoot deformity

M.Argiropoulos. Greece

3. Comparison between two techniques in percutaneous HV treatment

A.Katsarov. Bulgaria

4. Why hallux valgus relapses?

M.Uzun. Turkey

5. Perioperative management of F&A surgeries

D.Perkovic. Croatia

Discussion 15 min

Session 2: Forefoot Surgery and Foot management Conditions

10.30-12.00

Chairmen: D.Perkovic - T.Toros

1. Surgical treatment of hallux valgus in children

I.Zwinczewski. Poland

2. Interposition arthroplasty for hallux rigidus (MOKCIA)

A.Tanriover. Turkey

3. Revision Forefoot surgery

L.Makinyan. Russia

4. Comprehensive work up for neurological foot deformity

I.Botezatu. Romania

5. Proprioception and balance in diabetic foot

F.Kesiktas Turkey

Discussion 15min

Coffee break 12.-12.15

Session 3: Oral Presentations: Hindfoot Reconstruction the Russian experience

12.15-13.30

Chairmen: T.Badekas - A.Kachesov

1. Combined Total Talus Replacement and Total Ankle Joint Arthroplasty

V. Kuznetzov. Russia

2. Additive technologies in the replacement of bone defects in patients with diabetic foot

V. Nikitina. Russia

3. Hemiarthroplasty of the hindfoot with ceramic implants

V. Skrebtsov. Russia

4. Two-stage replacement of subtotal defects of the foot bones with a personalized allogenic 3D bone implant.

V. Obolensky. Russia

5. Removal of navicular bone as a method of surgical correction of the cavus Foot

L. Makinyan. Russia

Discussion 15 min

Session 4 Oral Presentations: Trauma and Hind-foot Complications and treatment

13.30-14.45

Chairmen: M. Argiropoulos – A. Yıldırım

1. Infection after Tibiotalocalcaneal Arthrodesis with Retrograde Intramedullary Nailing: Retrospective Analysis of 16 Patients

Ahmet Berkay Girgin. Turkey

2. Selective Fixation Methods in Lisfranc Fracture Dislocations

N.K. Yazgan. Turkey

3. Isolated Tillaux fractures in adults; Single centre case series

Ahmet Acar. Turkey

4. Evaluation of clinical and radiological results of cross-union method in congenital tibia pseudoarthrosis surgery

Abdurrahman Aydın. Turkey

Discussion 15 min

Lunch Break 14.45-15.30

Session 5 tendons and ligaments

15.30-16.45

Chairmen: A.Pettas - E. Baca

1. Treatment of Chronic Achilles tendon ruptures

A.Pettas. Greece

2. Plantar fasciitis with endoscopic treatment

B.Catal. Turkey

3. Impact of Syndesmosis Screw Removal on Medial Clear Space in Ankle Fractures with Syndesmosis Injury

S. Bayram. Turkey

4. Turf toe diagnosis and treatment.

P. Symeonidis. Greece

Discussion 15 min

End of 1st day

NEXT DAY

Session 6: Hindfoot deformities

9.30-10.45

Chairmen: A.Mazalov – U. Aydoğan

1.The effect of spring ligament repair on the results of surgical correction of flexible pes planovalgus

Tulgar Toros. Turkey

2. Navicular tubercle osteotomy for mobilization of the posterior tibial tendon:
A simple and effective technique for visualization and repair of the spring
ligament.

Tulgar Toros, Turkey

3. The problem of bringing down the 1st ray of the foot in surgery for
planovalgus deformity.

A.Mazalov. Russia

4. The use of titanium nickelide implants in the treatment of flatfootdeformity
in adults

A.Skrebtsov. Russia

5. Longitudinal arch stabilizers plasty in adult flatfoot correction;

A.Kachesov. Russia

Discussion 15 min

Session 7 Foot and ankle arthroscopy and sports medicine

10.45-12.00

Chairmen: A.Tanriover - K. Akan

1. Using sense of vibration to evaluate proprioception in ankle sprains

E.Baca. Turkey

2. Arthroscopic ankle arthrodesis

A.Yildirim. Turkey

3. Arthroscopic surgical treatment of posttraumatic osteoarthritis of
the metatarso-sesamoid joint.

D.Bobrov. Russia

4. Osteochondral lesions of the talus single incision technique

T.Badekas. Greece

Discussion 15 min

Coffee break 12.00-12.15

Session 8 Oral Presentations

Foot and Ankle evaluations and protocols

12.15-13.30

Chairmen: I.Botezatu - S. Yontar

1. Flexor Hallucis Longus Tendon Injuries: Case Series and Surgical Approaches

Y. Kiratlıoğlu. Turkey

2. Intra- and Interobserver Reliability in Hallux Valgus Angle Measurements on Weight-bearing and Non-Weightbearing Radiographs

B. Acar. Turkey

3. The investigation whether the Forgotten Joint Score - 12 (UES - 12) evaluation method is still useful compare to the other current methods

O.Özyaman. Turkey

4. Measurements of lateral talocalcaneal angle (L-TCA) and calcaneal pitch angle (CPA) is the radiological evaluation of pes planus

İ.Erdoğan. Turkey

5. Incidence and Characteristics of Foot and Ankle Tumors: A 13-Year Retrospective Study at a Tertiary Oncology Center

Resul Bircan. Turkey

Discussion 15 min

Session 9: Oral presentations Miscellaneous

13.30-14.45

Chairmen: E.Baca – B. Çatal

1. Comparison of Clinical and Functional Outcomes in Hallux Rigidus Patients Treated with Cheilectomy Surgery or Cortisone Injection

S.Sağlam. Turkey

2. Usefulness of Tuning-Fork Assisted Vibration Sensation as a Proprioceptive Measurement Method in Cases of Acute Anterior Talofibular Ligament (ATFL) Rupture: A Single Centre Study

M.C. Arı. Turkey

3. A retrospective comparison of WALANT technique and regional anesthesia in cheilectomy

Albert Çakar. Turkey

4. Comparison of Fixation Materials Used in Hallux Valgus Patients Undergoing Distal Metatarsal Osteotomy

R. Oral. Turkey

5. Unveiling the Link: Exploring the Correlation Between Plantar Fasciitis and Heel Fat Pad Thickness

A.Yüksel. Turkey

Discussion 15 min

Closing Remarks 14.45-15.00

BAFAS General Assembly 15.00-16.30
